

July 2015

Hilco Streambank completed six consumer brand transactions in the first half of 2015, delivering more than \$50 million of value to its clients. In addition to the widely publicized RadioShack transaction, we continued to demonstrate our leadership in apparel and retail brands.

Our experience, reputation and credibility in the industry continues to create new opportunities for us, our community of brand buyers, and the experienced professionals who rely on our execution capability to ensure the best results. In RadioShack, we resolved issues around consumer protection, integrity of the sale process and partitioning of the assets while achieving a favorable outcome for the creditors.

The recoveries we achieve for our clients consistently align with our appraised values, further demonstrating the market leadership of our IP Valuation product to the lending and restructuring communities.

We are looking forward to building upon these successes and our relationships to continue to create great outcomes for our clients.
